EDUCATION

York University, Lassonde School Of Engineering

B.Sc. Computer Science

Toronto, ON

Sep 2024 - Present

EXPERIENCE

Events & Onsite Support

Jan 2026 - Present

AWS Cloud Club @ Yorku

Toronto, ON

- Coordinated logistics and on-site operations for AWS Cloud Club technical events and workshops
- Collaborated with executive team to organize cloud computing workshops and networking events
- Contributed to building an engaging cloud-learning community on campus

Kiosk Supervisor

April 2025 - Present

Ontario Conservatory Of Music

Toronto, ON

- Delivered high-conversion outreach through confident communication and objection handling
- Generated 20+ weekly sign-ups through direct outreach and persuasive communication.
- Executed in-person marketing campaigns to drive customer acquisition

Tutor

Oct 2023- June 2024

Toronto District School Board

Toronto, ON

- Provided one-on-one and classroom tutoring in Mathematics, Science, and English to 15+ students
- Applied structured problem-solving techniques to break down multi-step mathematical and scientific concepts.
- Adapted explanations to different learning styles to optimize comprehension and retention

PROJECTS

MicUp | GitHub | Devpost | *React.js, Vite, TypeScript, Tailwind CSS, Gemini API*

- Built a browser-based AI speaking coach using React, TypeScript, and Gemini APIs to process real-time audio and generate structured feedback
- Implemented in-browser audio capture and base64 encoding pipeline
- Managed asynchronous API calls for low-latency feedback rendering

LockNote | GitHub | *HTML, CSS, JavaScript, Node.js*

- Engineered a full-stack web application with server-side authentication, progressive password hints, and account lockout security logic.
- Implemented authentication logic including username validation, multi-stage password hints, and 5-attempt account lockout mechanism
- Built customizable UI features including dynamic font selection and page color themes
